The aim of this document

1

The aim of this document is to give an in-depth description of the different fields and data elements contained in the XSD-files for Import declarations based on the EU Customs Data Model - <https://eucdm.softdev.eu.com/>

The document is structured after the EUCDM grouping of the data elements as well as DMS-specific data fields that are required by the system when using the S2S solution:

- **System-specific fields:** This section includes fields that are needed by the system to recognize what declaration is sent in, who is submitting the declaration, as well other data that is needed to fulfill the desired action.
- **Group 11:** This section contains basic information about the declaration and which procedures the declaration should be processed under. All this information influences how the declaration is processed, what kind of business scenario and procedure to be expected and requested.
- **Group 12:** This section is for the submitter to present all other relevant information and documents related to the submitted declaration that is not contained in the data fields. This is especially used for references tracking documents, authorizations and supplying tracking numbers.
- **Group 13:** This section contains information on all parties involved in the Import procedure. It is here information on the importer, exporter, declarant, fiscal reference, representative, etc., is provided either by ID or other identifiable information depending on whether the party is a company or private person.
- **Group 14:** In this section valuation information is given, examples of valuations are: taxes, transportation costs, delivery terms, etc.
- **Group 16:** This section contains the location-related information, e.g., where the goods will be or are presented (depending on whether it is a pre-lodged or a standard declaration) as well as the countries involved in the export/exit process.
- **Group 17:** This section contains information regarding which customs offices have handled the goods in the export/exit process.
- **Group 18:** In this section the submitter supplies more detailed information on the goods item(s) such as a weight, description, Taric code(s), etc.
- **Group 19:** This section contains information about the form of transport of goods, e.g., modes, container information, equipment, etc.
- **Group 99:** This section contains other information in the declarations which does not fit into the other above-mentioned groups.

Under each data element in the groups is provided a detailed description on whether the field is mandatory or optional as well as what rules to adhere to depending on the desired business scenario to make use of, and XML-examples are provided to give context.

Information on the EUCDM ID6 reference code is provided to help the reader in seeking further information if needed.

Glossary

2

To make the document shorter and easier to read, some abbreviations are used. Here is a list of the abbreviations used in this document.

| Abbreviation | Description | Details |
|----------------------|---|--|
| M | Mandatory | The field is mandatory to declare. |
| O | Optional | The field is optional to declare or should only be declared if relevant information is available. |
| | | |
| MC | Conditionally mandatory | The information is mandatory dependent on other information given in the declaration, e.g., type of declaration or commodity code. |
| DL | Declaration level | The information is given on header level and applies to all the goods items in the declaration. |
| GSL | Goods shipment level | The information is given on goods shipment level and applies to all the goods items in the goods shipment. |
| GIL | Goods item level | The information is given on goods item level and applies to only the goods item it is declared under. |
| C/A | Defines whether an element can be corrected or amended | Yes/Yes means can be corrected and amended. Yes/No means it can be corrected but not amended No/Yes means it can't be corrected but it can be amended No/No means it can't be corrected or amended |
| EUCDM | European Union Customs Data Model | The European Union Customs Data Model (EUCDM) is the model for Customs trans-European systems such as NCTS, AES, ICS, EOS and for Member States national customs clearance systems |
| XSD | XML Schema Definition | A document that specifies how to formally describe the elements in an Extensible Markup Language (XML) document. This description can be used to verify that each item of content in a document adheres to the description of the element in which the content is to be placed. |
| XML | Extensible Markup Language | A simple text-based format for representing structured information, storing, and sending data. It is the file format used to send declarations to DMS. |
| n/a | Not Applicable | The information does not apply to the given element/declaration. |
| Requirement Overview | Mandatory / Optional / Conditionally mandatory / Levels / Rules | Defines whether an element is M, O, MC (see abbreviations above) or whether any EUCDM rules apply to the given element in a specific declaration. |
| M/O | Defines whether a field is mandatory or optional when the main field is in the XML Mandatory/Optional | For a lot of input fields, the sub elements of that field are not always mandatory even though the overall input field is. For example, is Supporting Document which is optional, but when put into to an XML, SequenceNumeric and ID becomes mandatory as the only elements. |
| ND | Not Determined | The mandatory or optional status of these elements are not yet determined. |

Footnotes

3

Throughout the XML-Guide you will see several footnotes, all of these refers to this table. All these footnotes can also be found on EUCDM.

| FOOTNOTE | DESCRIPTION |
|-------------|---|
| [1] | This information shall not be required in case a customs declaration has been lodged prior to the presentation of the goods pursuant to Article 171 of the Code. |
| [2] | In the cases where Article 166(2) of the Code (simplified declarations based on authorizations) is applicable, Member States may waive the obligation to provide this information where the conditions prescribed in the authorizations associated with the procedures concerned allow them to defer the collection of this data element in the supplementary declaration. |
| [3] | This element is an alternative to the unique consignment reference number [UCR] when the latter is not available. It provides a link to other useful sources of information. |
| [4] | This information needs to be provided only where Article 166(2) of the Code (simplified declarations based on authorizations) is applicable; in this case, it is the number of the authorization for simplified procedure. However, this data element can also contain the transport document number concerned. |
| [5] | This information is only required where the declaration of placing of goods under a customs procedure is used to discharge a customs warehousing procedure. |
| [6] | Where the EORI number or a third country unique identification number recognized by the Union is provided, the name and address shall not be provided. |
| [7] | The Holder of the transit procedure Identification number is mandatory only in the cases where the EORI number or a third country unique identification number recognized by the Union of the person concerned is not provided. Where the EORI number or a third country unique identification number recognized by the Union is provided, the name and address shall not be provided. The TIR Holder identification number is mandatory in case the Declaration type is TIR; otherwise, it cannot be used. |
| [8] | This information shall only be provided where available. |
| [9] | This information shall not be provided in respect of cargo remaining on board (FROB) or transhipped cargo for which the destination is located outside the Customs territory of the Union. |
| [10] | Member States may waive this information where the customs value of the goods in question cannot be determined under the provisions of Article 70 of the Code. In such cases the declarant shall furnish or cause to be furnished to the customs authorities such other information as may be requested for the purposes of determining the customs value. |
| [11] | This information is not to be provided when customs administrations calculate duties on behalf of economic operators on the basis of information elsewhere in the declaration. It is otherwise optional for the Member States. |
| [12] | This information is not required for goods eligible for relief from import duties, unless the customs authorities consider it necessary for the application of the provisions governing the release for free circulation of the goods concerned. |
| [13] | This information is not to be provided when customs administrations calculate duties on behalf of economic operators on the basis of information elsewhere in the declaration. |
| [14] | Except where it is essential for the correct determination of the customs value, the Member State of acceptance of the declaration shall waive the obligation to provide this information, if any of the following is the case: <ul style="list-style-type: none"> • where the customs value of the imported goods in a consignment does not exceed EUR 20.000 provided that they do not constitute split or multiple consignments from the same consignor to the same consignee, |

| | |
|------|--|
| | <ul style="list-style-type: none"> • where the importation is of a non-commercial nature • in case of continuing traffic in goods supplied by the same seller to the same buyer under the same commercial conditions. |
| [15] | Member States may require this information only in cases when the rate of exchange is fixed in advance by a contract between the parties concerned. |
| [16] | For completion only where Union legislation so provides. |
| [17] | This information shall only be required where the simplified declaration is not lodged together with an exit summary declaration. |
| [18] | This data element is mandatory for agricultural products with export refunds. |
| [19] | This data element is mandatory for agricultural products subject to refunds and for those goods which Union legislation requires the origin of the goods in the context of trade with special fiscal territories. |
| [20] | <p>This information is required where:</p> <ul style="list-style-type: none"> a) no preferential treatment is applied or b) the country of non-preferential origin is different to the country of preferential origin. |
| [21] | This information is required where a preferential treatment is applied using the appropriate code in D.E. 14 11 000 000 Preference. |
| [22] | This information shall only be used in case of centralized clearance. |
| [23] | This information shall only be used in case the declaration for temporary storage or the customs declaration to place the goods under a special procedure other than transit is lodged at a customs office different to the supervising customs office as indicated in the respective authorization. |
| [24] | This information shall only be required in case of commercial transactions involving at least two Member States. |
| [25] | This information shall only be provided for entry into the declarants' records and only if the discharge of the goods under temporary storage concerns only parts of the declaration for temporary storage lodged previously in relation with the goods concerned. |
| [26] | This data element is an alternative to the Commodity code when it is not provided. |
| [27] | This data element can be provided to identify goods covered by a notification for re-exportation of goods under temporary storage where part of the goods covered by the declaration for temporary storage concerned are not re-exported. |
| [28] | This data element is an alternative to the description of goods when it is not provided. |
| [29] | This data element is not mandatory in case the declaration type is TIR. |
| [30] | Member States may waive this requirement for modes of transport other than rail in case the transit movement doesn't cross the external border of the Union. |
| [31] | This information does not have to be provided when export formalities are carried out at the point of exit from the customs territory of the Union. |
| [32] | This data element does not have to be provided where the import formalities are carried out at the point of entry into the customs territory of the Union. |
| [33] | <p>This data element is mandatory for agricultural products with export refunds, unless they are carried by post or fixed transport installations.</p> <p><i>[In case of transport by post or fixed installations, this information shall not be required.]</i></p> |

| | |
|------|---|
| [34] | Not for use in the case of postal consignments or carriage by fixed transport installations. |
| [35] | Where goods are carried in multimodal transport units, such as containers, swap bodies and semi-trailers, the customs authorities may authorize the holder of the transit procedure not to provide this information where the logistical pattern at the point of departure may prevent the identity and nationality of the means of transport from being provided at the time the goods are released for transit, providing multimodal transport units bear unique numbers and such numbers are indicated in D.E. 19 07 063 000 Container identification number. |
| [36] | <p>In the following cases, Member States shall waive the obligation to enter this information on a transit declaration lodged at the office of departure in relation with the means of transport on which the goods are directly loaded:</p> <ul style="list-style-type: none"> - where the logistical pattern does not allow this data element to be provided and the holder of the transit procedure has the AEOC status and - where the relevant information may be traced where needed by the customs authorities via the records of the holder of the transit procedure. |
| [37] | Not for use in the case of postal consignments or carriage by fixed transport installations or rail. |
| [38] | <p>This data element is mandatory for agricultural products with export refunds unless they are carried by post, fixed transport installations, or rail.</p> <p><i>[In case of transport by post, fixed installations or rail, this information shall not be required.]</i></p> |
| [39] | This information shall only be required where the release of the goods is subject to the provision of a comprehensive guarantee. |
| [40] | The Member State of acceptance of the declaration may waive the obligation to provide this information where it is in the position to assess it correctly and has implemented calculation routines to provide a result compatible with statistical requirements. |
| [41] | This data element shall only be used in the context of a supplementary declaration for Entry into the declarant's records. |
| [42] | This data element shall only be used in the context of TIR Carnet. |
| [43] | Each goods item number must be unique throughout the consignment (master level). The items shall be numbered in a sequential fashion, starting from 1 for the first item and incrementing the numbering by 1 for each following item. |
| [44] | Each goods item number must be unique throughout the consignment (house level). The items shall be numbered in a sequential fashion, starting from 1 for the first item and incrementing the numbering by 1 for each following item. |
| [45] | <p>This information shall be provided either at consignment or consignment/goods item level.</p> <p>Where the same information is applicable to all goods items of the same consignment it shall be provided at consignment level only.</p> |
| [46] | EORI number shall be declared. |
| [47] | Where an EORI number or third country unique identification number (TCUIN) was assigned, it shall be declared. |
| [48] | At least one of the following shall be declared: Estimated date and time of arrival (D.E. 15 03 000 000); transport document (D.E. 12 05 000 000) or previous document (D.E. 12 01 000 000). In maritime traffic in addition the entry key may be used. |
| [49] | In the address either street and number or P.O. box is to be declared. |
| [50] | This data element does not need to be provided where the declaration is lodged prior to departure. |

| | |
|------|---|
| [51] | This information shall only be provided when the declaration is amended. |
| [52] | This information can be provided alternatively on master consignment or on house consignment level upon referral request. |
| [53] | This information can be provided alternatively on master consignment item or on house consignment item level. |
| [54] | <p>This information is not required:</p> <ul style="list-style-type: none"> a) when the goods are declared for release for free circulation under the special scheme for distance sales of goods imported from third countries and territories set out in Title XII Chapter 6 Section 4 of Directive 2006/112/EC; or b) when the goods are of a non-commercial character sent from a third country by private persons to other private persons in a Member State and exempt from VAT pursuant to Article 1 of Council Directive 2006/79/EC (1). |
| [55] | This information is only required when the goods are declared for release for free circulation under the special scheme for distance sales of goods imported from third countries and territories set out in Title XII Chapter 6 Section 4 of Directive 2006/112/EC. |

| Description: | | | | | | | | | | | |
| LRN – The local reference number (LRN) shall be used. It is nationally defined and allocated by the declarant or representative in agreement with the competent authorities to identify each single declaration. | | | | | | | | | | | |
| Rules/codes/other relevant information: | | | | | | | | | | | |
| No special characters are allowed. | | | | | | | | | | | |
| Must be unique on a submitter level but can be reused for resubmission if the declaration has been rejected, except for when the declaration has been rejected due to invalidation of a pre-lodged declaration. This means you can submit using the same (accepted) LRN using two different submitters, but never using the same submitter. | | | | | | | | | | | |

Description:

The country from which goods were initially dispatched.

Rules/codes/other relevant information:

The element origin contains info about the **country of origin** and info about the **preferential country of origin** which must be filled out under certain circumstances. The latter is only mentioned under the table **Country of preferential origin**.
For this version of origin, the union code of the country of origin is entered.

SequenceNumeric:

Indicates the number of this element in the sequence of Origin elements. Must be given sequentially. Starts at 1.
As there can only be at maximum of two country of origin, it will always be 1 or 2.

CountryCode (16 08 001 000):

For Codelist information, see codelist – Import excel sheet found on [GitHub](#)

For **16 08 001 000** footnote [20] applies to **H1, H3, H4, H5, and I1** declarations, and footnote [2] applies to **I1** declarations.

13 04 000 00: Uses a different code list in **preferential country of origin**.

TypeCode (16 08 001 000):

If a preferential treatment is requested based on the origin of the goods in data element **Preference (14 11 000 000)** the Specify '1' for country of origin and '2' for country of preferential origin.

| Description: | | | | | | | | | | | |
| Information about the place where the goods are located. | | | | | | | | | | | |
| Rules/codes/other relevant information: | | | | | | | | | | | |
| Using the relevant codes, enter the location where the goods may be examined. This location shall be precise enough to allow customs to carry out the physical control of the goods. | | | | | | | | | | | |
| The type of location, and how it is declared, is given by the fields: TypeCode and IdentificationType. For declaring the location of goods there are predefined codes for indicating the type of location and how it is declared with specific possible values and combinations: | | | | | | | | | | | |
| CountryCode (16 15 018 020): | | | | | | | | | | | |
| For Codelist information, see codelist - Import excel sheet found on GitHub | | | | | | | | | | | |
| TypeCode (16 15 045 000) | | | | | | | | | | | |
| This TypeCode Indicates the type of location where the goods will be presented. Only one Type is to be used at the same time. For Codelist information, see codelist - Import excel sheet found on GitHub | | | | | | | | | | | |
| The TypeCodes and their types of locations are: | | | | | | | | | | | |
| - 'A': Designated place | | | | | | | | | | | |

- 'B': Authorised place
- 'C': Approved place
- 'D': Other

IdentificationType (16 15 046 000):

Indicates how the location will be declared:

- 'U': UN/LOCODE
- 'V': Customs Office ID
- 'W': GNSS coordinates
- 'X': EORI number
- 'Y': Authorisation number
- 'Z': Free text
- 'T': Postal code

The valid combinations for the two fields are:

- 'A' and 'U': Designated place identified by UN/LOCODE (e.g., DKCPH-0011 for Copenhagen - Langelinje)
- 'A' and 'V': Designated place identified by Customs Office ID (e.g., DK007900 for Skattecenter København)
- 'B' and 'Y': Authorised place identified by Authorisation number.
- 'C' and 'Z': Approved place identified by filling in the address fields.
- 'D' and 'Z': Other place identified by filling in the address fields.
- 'D' and 'W': Other place identified by GNSS coordinates.
- 'D' and 'X': Other place identified by an EORI number.
- 'D' and 'T': Other place identified by a postal code.

Name (16 15 036 000 UN/LOCODE)

For Codelist information, see codelist excel sheet found on [GitHub](#). Should only be filled when IdentificationType = 'U'.

What to fill in this field is given by the Type of location, meaning that if:

- IdentificationType = 'U': this field should not be filled.
- IdentificationType = 'V': this field should not be filled.
- IdentificationType = 'W': this field should not be filled.
- IdentificationType = 'X': this field can be filled with an additional identifier to the EconomicOperator element. The EORI number itself should be filled in the identification field of the EconomicOperator element.
- IdentificationType = 'Z' this field should not be filled.

The following subelements of **Address (16 15 018 00)** should be filled when IdentificationType = 'Z':

CityName (16 15 018 022):

City name of the location of goods.

CountryCode (16 15 018 020):

For Codelist information, see codelist excel sheet found on [GitHub](#)

Line (16 15 019 00):

Street name and street number of the location of goods.

PostCodeID (16 15 018 020):

Post code of the location of goods.

The following subelements of **Address (16 15 018 00)** should be filled when IdentificationType = 'T':

CountryCode (16 15 081 020):

For Codelist information, see codelist excel sheet found on [GitHub](#).

PostCodeID (16 15 081 021):

Post code of the location of goods.

streetNumber (16 15 081 025):

Street name and street number of the location of goods.

authorisationReferenceNumber (16 15 052 000):

Authorisation number. Should only be filled when IdentificationType = 'Y'.

CustomsOffice (16 15 047 000):

Identification (16 15 047 001):

Customs Office ID (e.g., DK007900).
 Should only be filled when IdentificationType = 'V'.
 See the list of Customs Office ID's here:
https://ec.europa.eu/taxation_customs/dds2/rd/rd_consultation_location.jsp?Lang=en

Latitude (16 15 048 049):

Latitude coordinate of the location of goods.
 Should only be filled when IdentificationType = 'W'.

Longitude (16 15 048 050):

Longitude coordinate of the location of goods.
 Should only be filled when IdentificationType = 'W'.

EconomicOperator (16 15 051 000):

identification:

EORI number of Economic Operator.
 Should only be filled when IdentificationType = 'X'.

Description:

Customs Decision application element 8F for Customs Decision.

Rules/codes/other relevant information:

Owner of the Goods (**33 08 000 000**): Where applicable under the relevant Article, enter the name and address of the non-Union owner of the goods to be placed under the temporary admission

First Place of use or processing (**FirstPlaceOfUseOrProcessing**): Using the relevant code, enter the address of the place concerned. This information shall only be provided, if, in the context of an application for an authorisation for the use of inward processing or end-use procedures.

Place(s) of processing or use (**PlaceOfProcessingOrUse**): Using the relevant code, indicate the address of the place(s) concerned.

Customs Office(s) of discharge (**CustomsOfficesOfDischarge**): Indicate the suggested customs office(s)

Supervising customs office (**SupervisingCustomsOffice**): Indicate the competent customs office, as provided for in article 1(36).

Period for discharge (**DischargePeriod**): Enter the estimated period expressed in months needed for the operations to be carried out or use within the special customs procedure applied for.

Yield Rate (**YieldRate**): Estimated rate of yield or estimated average rate of yield, or where appropriate, the method of determining such rate.

Processed Products (**ProcessedProducts**): Enter details of all processed products resulting from the operations, indicating the main processed product and the secondary processed products which are by-products of the processing operation other than the main processed product, as appropriate.

Identification of Goods (**IdentificationOfGoods**): Enter the intended measures of identification by using at least one of the relevant codes

Economic Conditions (**EconomicCondition**): The inward or outward processing procedure can be used only where the essential interests of the Union producers would not be adversely affected by an authorisation for a processing procedure (economic conditions).

In most of the cases an examination of the economic conditions is not necessary. However, in certain cases such an examination must be carried out at Union level.

Details of Planned Activities (**DetailsOfPlannedActivities**): Describe the nature of the planned activities or use (e.g., details of the operations under a job-processing contract or kind of usual forms of handling under inward processing) to be carried out on the goods within the special procedure.

If the applicant wishes to carry out the processing of the goods under inward processing or end-use procedure in a customs warehouse, pursuant to Article 241 of the Code, he shall provide the relevant details.

Where appropriate, indicate name, address and function of other persons involved.

Additional Information (**AdditionalInformation**): Enter any additional information, if deemed helpful

Calculation of the amount of the import duty in accordance with article 86(3) of the Code (**ImportDuty**): Application: Indicate ('yes/no') whether the applicant wishes to calculate the import duty in accordance with Article 86(3) of the Code.

If the answer is 'no', Article 85 of the Code must be applied, which means, that the calculation of the amount of import duty is made on the basis of the tariff classification, customs value, quantity, nature and origin of the goods at the time at which the customs debt in respect of them incurred.

Decisions:

In case the holder of the authorisation wishes to calculate the import duty in accordance with Article 86(3) of the Code, the authorisation for inward processing shall provide for that the relevant processed products may not be imported directly or indirectly by the holder of the authorisation and released for free circulation within a period of one year after their re-export. However, the processed products may be imported directly or indirectly by the holder of the authorisation and released for free circulation within a period of one year after their re-export if the amount of import duty is determined in accordance with Article 86(3) of the Code.
