Introduction

1

This document describes the updates to low value consignments and a general B2C handling fee, as a part of the EU customs reform. The aim of this document is to provide an understanding of the implementation of customs duty on low value consignments and a general handling fee on B2C consignments, and the document includes detailed descriptions of rules and changes. Frequently asked questions about customs duty on low value consignments can be found on toldst.dk. Additional information and [guidance can be found on TAXUD](#).

As of July 1. 2026, low-value B2C consignment (parcels with an intrinsic value not exceeding 150 EUR) will be subject to a fixed 3 EUR customs duty per goods item. It is applicable to all import declarations for postal and free circulation, hence H1, H6 as well as H7. Appendix 1 illustrates how the 3 EUR customs duty applies to each different item, according to their tariff headings, contained in a consignment.

As of November 1. 2026, it is expected that B2C consignments in general will be subject to an additional handling fee per goods item. The handling fee applies to all B2C consignments. The handling fee will not be refundable. The EU handling fee introduces a new document type Y126, and Additional Procedure 108. Y126 must be declared in Additional reference (12 04 000 000). Other rules apply if Additional procedure is C08 or 108, see section 3.

Important: Make sure that pre-lodge declarations submitted prior to the relevant dates above fulfill the requirements when submitting the goods presentation notification after the cut-over date. Declarations pre-lodged prior to the cut-over date with document type Y126 or additional procedure 108 will receive a non-rejecting warning.

The changes affect how low value consignments and B2C consignments in general are declared. Note that Additional Procedure C07 has been removed and replaced by F48, F49 and F53. With the implementation of the EU handling fee, Additional Procedure 108 is introduced.

F48: Import under the special scheme for distance sales of goods imported from third countries or third territories set out in Title XII Chapter 6 Section 4 of Directive 2006/112/EC.

F49: Import under the special arrangements for declaration and payment of import VAT set out in Title XII Chapter 7 of Directive 2006/112/EC.

F53: Goods the intrinsic value of which does not exceed a total of EUR 150 per consignment, sold in distance sales of imported goods as defined in Article 14(4), point (2), of Directive 2006/112/EC, excluding goods the importation of which is exempt from VAT in accordance with Article 143(1), point (ca), of Directive 2006/112/EC and goods where the VAT is declared under the special arrangements laid down in Title XII, Chapter 7, of Directive 2006/112/EC.

108: Without Additional Procedure

Declaration types

2

2.1 H1 Declaration

For H1 declarations, the commission will introduce a new measure and corresponding Preference Code 500 that must be used on B2C low-value consignments. The following rules apply to H1 low value consignments:

- Additional Procedure F48, F49 and F53 are only allowed for B2C declarations with a total value below or equal to 150 EUR.
- For F48, F49 and F53 the Importer ID (13 04 017 00) must be equal to DK09999981.
- When Additional Procedure F48 is specified, an IOSS-registration number must be specified in Additional Fiscal Reference (13 16 000 000) with Role Code FR5.
- When Additional Procedure F49 or F53 is specified, no IOSS-registration number must be specified.

For all B2C consignments regardless of value, the following rule applies:

- Y126 must be declared in AdditionalReference/Type (12 04 002 000) when Importer ID (13 04 017 000) is equal to DK09999981.

H1 declarations failing to meet the above rules must be made as “ordinary” H1 declarations where the standard tariff is calculated and collected. For H1 declarations, additional tariff classification is mandatory, and the example in appendix 1 illustrates how it affects low value consignment. As a general rule, in order for goods to be released, either the customs debt has been paid, or the existing customs debt should be covered by a guarantee. For low value consignments on H1 Declarations, you must declare Guarantee type (99 02 000 000) ‘1’ or ‘3’. Use ‘1’ for comprehensive guarantee, or use ‘3’ for individual guarantee in cash or other means of payment recognized by the customs authorities.

Table 2-1 illustrates the 3 EUR Flat Rate rules and calculations based on the Additional Procedure and Preference Code.

3 EUR Flat Rate					
Dataset	Additional Procedure	IOSS	Preference Code	DMS Rules	Calculation
H1	F48	Yes (FR5)	500	If Additional Procedure == F48 THEN Value <= 150 EUR (1150 DKK) AND Role Code FR5 must be present and vice versa AND Preference Code must be == 500 AND D.E. 13 04 017 000 – importerIdentificationnumber == DK09999981 Set calculationAttribute == IOSS	3 EUR duties Calculate VAT on customs value only
	F49, F53	No (No FR5)		If Additional Procedure == F49 OR F53 THEN Value <= 150 EUR (1150 DKK) AND No Role Code FR5 must be present AND D.E. 13 04 017 000 – importerIdentificationnumber == DK09999981	3 EUR duties Calculate VAT on customs value and import duty

3 EUR Flat Rate					
Dataset	Additional Procedure	IOSS	Preference Code	DMS Rules	Calculation
	F49, F53	No (No FR5)	2xx, 3xx, 4xx	If Additional Procedure == F49 OR F53 THEN Value <= 150 EUR (1150 DKK) AND No Role Code FR5 must be present AND Preference Code < > 100 AND D.E. 13 04 017 000 – importerIdentificationnumber == DK09999981	Duties according to preference/measure type

Table 2-1 – 3 EUR Flat rate on H1 dataset

2.2 H6 Declaration

For H6 declarations it is not possible to specify a Preference Code, but almost the same rules apply. Additional Procedure F48, F49 and F53 are only allowed for B2C declarations with a total value of below or equal to 150 EUR. H6 declaration failing to meet the rules must be made as “ordinary” H6 declarations where the standard tariff is calculated and collected. Table 2-2 illustrates the 3 EUR Flat Rate rules and calculations for the H6 dataset.

3 EUR Flat Rate				
Dataset	Additional Procedure	IOSS	DMS Rules	Calculation
H6	F48	Yes (FR5)	If Additional Procedure == F48 THEN Value <= 150 EUR (1150 DKK) AND Role Code FR5 must be present and vice versa Preference Code must be set == 500 in the call to ITE Tariff AND D.E. 13 04 017 000 – importerIdentificationnumber == DK09999981 Set calculationAttribute == IOSS	3 EUR duties Calculate VAT on customs value only
	F49, F53	No (No FR5)	If Additional Procedure == F49 OR F53 THEN Value <= 150 EUR (1150 DKK) AND No Role Code FR5 must be present and vice versa Preference Code must be set == 500 in the call to ITE Tariff AND D.E. 13 04 017 000 – importerIdentificationnumber == DK09999981	3 EUR duties Calculate VAT on customs value and import duty
	< > F48, F49, F53	No (No FR5)	If Additional Procedure < > F48, F49 AND F53 AND D.E. 13 04 017 000 – importerIdentificationnumber == DK09999981 THEN Value > 150 EUR (1150 DKK) AND No Role Code FR5 must be present Preference Code must be set == 100 in the call to ITE Tariff	Normal Duties

Table 2-2 – 3 EUR Flat rate on H6 dataset

2.3 H7 Declaration

H7 declarations will be dedicated to B2C low value consignments and will be subject to the fixed 3 EUR customs duty per item. Thus, the Importer ID must be declared as DK09999981. B2B is no longer possible on H7 declarations and will be dedicated to H1 declarations. Several rules apply in DMS depending on what is declared in the declaration:

- The total value of a B2C (Additional Procedure code F48, F49 and F53) declaration is not allowed to exceed 150 EUR.
- When additional procedure F48 is specified an IOSS-registration number must be specified in Additional Fiscal Reference (13 16 000 000) with Role Code FR5.
- When F49 or F53 is specified no IOSS-registration number must be specified.
- Y126 must be declared in AdditionalReference/Type (12 04 002 000) when Importer ID (13 04 017 000) is equal to DK09999981.
- Additional procedure C08 is unchanged and can be used to declare gifts from one private individual to another (C2C) up to maximum of 360 DKK.

As a general rule, in order for goods to be released, either the customs debt has been paid, or the existing customs debt should be covered by a guarantee. For H7 declarations, DMS will automatically check whether the declarant (EORI) has a CGU authorization. If not, a cash payment must be made for the goods to be released. A customs officer will have to manually grant the request. Note that table 2-3 below illustrates the 3 EUR Flat Rate rules and calculation for H7 declarations based on the Additional Procedure.

3 EUR Flat Rate				
Dataset	Additional Procedure	IOSS	DMS Rules	Calculation
H7	F48	Yes (FR5)	If Additional Procedure == F48 THEN Value <= 150 EUR (1150 DKK) AND Role Code FR5 must be present and vice versa Preference Code must be set == 500 in the call to ITE Tariff AND D.E. 13 04 017 000 – importerIdentificationnumber == DK09999981 Set calculationAttribute == IOSS	3 EUR duties Calculate VAT on customs value only
	F49, F53	No (No FR5)	If Additional Procedure == F49 OR F53 THEN Value <= 150 EUR (1150 DKK) AND No Role Code FR5 must be present AND D.E. 13 04 017 000 – importerIdentificationnumber == DK09999981	3 EUR duties Calculate VAT on customs value and import duty
	C08		Value <= 360 DKK D.E. 13 04 017 000 – importerIdentificationnumber == DK09999981	No Calculation

Table 2-3 – 3 EUR Flat rate on H7 dataset

Other Additional Procedures

3

In this section two additional procedures are covered and described briefly. Additional Procedure C08 remains unchanged while as of November 1. 2026, Additional Procedure 108 is introduced in DMS.

3.1 Additional Procedure C08 and 108

Additional Procedure C08 can be used to declare gifts from one private individual to another (C2C) up to maximum of 360 DKK. For this Additional Procedure there is no calculation.

Additional Procedure 108 is a new national code introduced November 1. 2026. It is used to declare gifts from one private individual to another (C2C) exceeding 45 EUR and not subject to handling fee.

Y126 should not be declared in additional references when Additional Procedure is C08 or 108.

CWMTAX

4

4.1 CWMTAX example

Please note that the CWMTAX notification can contain information about customs duty (A00), Handling Fee (F00) as well as VAT (B00). Below you will find an example of a CWMTAX Notification with all these elements present:

```
